Patent Examiner  
Art Unit 2813

*Stephen W. Smoot*

This Office action is in response to applicant's amendment filed on 14 June 2006, which has been entered.

#### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below to correct obvious informalities in claim 18. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. The application has been amended as follows:

**In the Claims:**

In claim 18, line 1, delete "14. (Currently Amended)"; and

In claim 18, last line, change "circuit" to --circuit board--.

3. Claims 1-13, 18, 22 are allowed.

4. The following is an examiner's statement of reasons for allowance:

- Claims 1-13 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method of assembling a semiconductor package that includes the steps of attaching a protective tape to the active surface of a semiconductor wafer, sawing the semiconductor wafer to separate it into a plurality of individual chips while each individual chip remains covered by a portion of the protective tape, attaching an individual chip to a chip pad, and subsequently removing the portion of the protective tape from the individual chip;
- Claim 18 is allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, an apparatus for use in assembling a semiconductor package that includes a chip positioning device, a tape positioning device and a tape displacement device, wherein the chip positioning device is arranged and configured to hold a plurality of individual chips mounted on a frame, a leadframe, or a circuit board; and
- Claim 22 is allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, an apparatus for use in assembling a semiconductor package that includes a chip positioning device and a tape removal device, wherein the chip positioning device is arranged and configured to hold a plurality of individual chips mounted on a frame, a leadframe, or a circuit board.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
